

Italian Easter Bread

Every year Maryelizabeth's edibleart enjoys producing a limited number of beautiful, big loaves of tender and delicious Italian Easter bread. The recipe was developed by my grandmother Fannie Bonerb, almost 100 years ago. The ingredients are simple, and there are no added spices to compete with the natural flavor of the bread dough. I have never found another Easter Bread recipe like this. It is truly a gem. I look forward to sharing this marvelous bread with you. The loaves are approximately 12" in diameter and are decorated with colored Easter eggs. Call and order yours today.
