

# Raspberry Bearclaws

An Old World treat straight from  
the famous Vienna coffee houses!

Brisker fall weather could mean more time spent indoors with a cup of favorite coffee or tea and appreciating the autumn beauty from a comfy chair.

Maryelizabeth's edible art has just the accompaniment for crisp fall mornings or lazy golden afternoons.

If you are in the gourmet food business, raspberry bearclaws are an item that your customers will love and request often. The buttery goodness of true Danish pastry dough is a real treat. These fabulous creations take over 24 hours to make from start to finish, and they are well worth the wait. Real raspberry bearclaws with their unique shape are a work of art indeed, and are available by the dozen as special orders only.
