Dazzel 'Em

During the holidays Maryelizabeth's edibleart has it all! Just to begin the list, there are eye popping assortments of cookies, special cakes including specially designed wedding cakes just for the holiday season, Italian specialties, stollens, and tiny decorated gingerbread men sold by the pound.

How many in a pound, you might ask...13 dozen. These tiny treats make a fun welcome placed in a silver bowl by the door. They are a charming and special gift, presented in a lovely little basket. The possibilities are endless. Please place orders early as the gingerbread are labor intensive to produce and we want each little cookie to be perfect!

The gingerbread can be shipped. Hand delivery for cakes in the Western New York area is available, too.

Please inquire.
